Lamborghini now in the game - what is there more to say. No instructions, couldn't find the matches so I didn't survive past 2 hours. I'm sad.. Mousecraft is very similar to tetris puzzles, using the same style blocks only with a twist. You get a set amount of differant blocks to use and you must place them in a way so the mice can get to the cheese with out killing them. You also must try and collect the crystals as well. As you progress through the puzzles you earn more blocks, being differant type's, jelly blocks for the softer landings and bomb blocks to blow stuff up and many more. There is also Steam Acheviements to be earned as well. The game has just been updated and finished so this is very good news. I have enjoyed playing Mousecraft and the little mice are very cute, so if you like puzzle type games then I'm sure you'll like this little gem. :)

Compared to *Bai Qu*, the illustrations of background and character are improved, and the movement of storyboards gives players a better chance to experience the plots in this game. The storyline follows *Bai Qu*, so the original characters give me a warm feeling.. Good program but the absence of a pdf manual is a real downside.. I got this game for free]

Well, i don't like games like this one and it was hard to beat for me - whenever, for someone who likes this type of games... that would be very good and funny game.. Reminds me of an old flash game called "Air Defence 3" But more repetitive and less automation. Still though, I recommend it. Get it on sale and spend a few hours.. Nice little exploration/puzzle game with some orbital mechanics. I haven't played co-op yet but I really like it single-player.. Stop assuming I don't know any Jacks.. 5 hours in the game crashes after my turn there is no fix in sight and i cant find the solution after many searches i have a brand new high end system(gtx980 and I7) buying this game is a big big risk .
in my opinion it isnt worth it.i really wish i could fix it i love the story and the game play is acceptable. So much fun! You never know how it will end! Its a must have!
